

NEW

Concrete Wood-like Texture Coating

SKK WOOD GRAIN

ファイン FR MATT 工法 木目調仕上げ

A NEW APPLICATION SYSTEM EXCLUSIVELY FOR EXTERNAL, INTERNAL WALL
AND SOFFITS WITH EXCELLENT WOOD GRAIN DESIGN.

Colour variations

With our unique foundation technology, it is possible to provide the wood-like finish.

Low odour (during application)

Due to its water-based specifications, it contains almost no VOC (Volatile Organic Compounds) and minimizes odour during application.

Mould and algae resistance

It has excellent resistance to microbial contamination such as mould and algae, and helps maintain a beautiful and clean environment for a long period of time.

Weather resistance

Specially formulated to withstand harsh weather conditions, ensuring long lasting protection and durability.

Fireproof performance

It is certified as a fireproof material in Japan.
(Non-combustible Certificate Number: NM-4728)

Health and environmental impact reduction

It does not contain volatile harmful substances such as formaldehyde.

Suitable substrates ^{※1}

Gypsum boards, calcium silicate boards, concrete^{※2}, cement mortar^{※2}, metallic panel, PC members (on-site construction)

※1. It may not be able to be applied to substrates with significant unevenness/irregularities.

※2. When applying to concrete, cement mortar, etc. the sufficient substrate preparation is required.

Insufficient preparation may affect the finish causing honeycomb, unevenness, uneven absorption, etc.

Standard colours 12 colours

※The colour number is BFR-●●● for the undercoat and FFR-●●● for the main coat.

※**Special colours are available.**

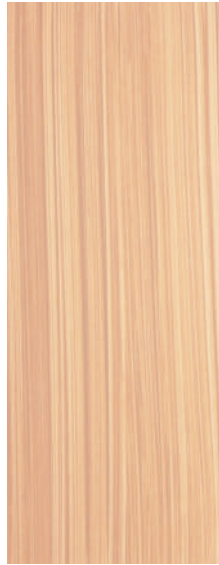

※Printed colours may be different from actual material colours.

BFR-401/FFR-401

BFR-402/FFR-402

BFR-403/FFR-403

BFR-404/FFR-404

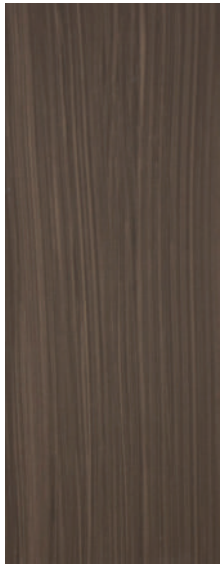

BFR-405/FFR-405

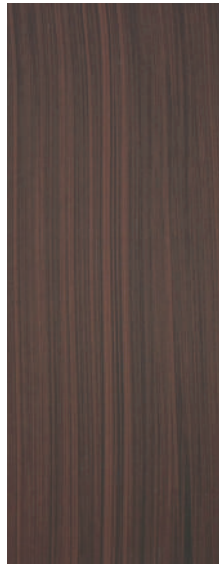

BFR-406/FFR-406

BFR-407/FFR-407

BFR-408/FFR-408

BFR-409/FFR-409

BFR-410/FFR-410

BFR-411/FFR-411

BFR-412/FFR-412

Precautions

- Even with the same colour number, the colour appearance and pattern may vary depending on the on-site application environment and method. Please be sure to check the pattern by test application at site.
- The pattern width of the wood grain is approximately 450 to 600mm in the longitudinal direction. If it is longer than that, joints are required.
